MEMORANDUM FOR MR. PFORZHEIMER:

Subject:

Proposed Text of the Director Before the Senate Armed Services Committee.

- 1. At your request 1 have read your porposed text of the Director's testimony before the Senate Armed Services Committee on \$758.
- 2. You know best what is required, but in my opinion for most purposes this sort of statement should be ten and not twenty
  - 3. I have circled those words to which I object.
- 4. I have question-marked those sections raising doubt in my mind, either as to their meaning or their appropriateness. I have parenthesized those words, sections, and paragraphs which I think should be omitted. I think you have missed a bet by not emphasizing the degree to which this country was required to lean on the British intelligence at the beginning of the war.
